Honour me!
Chaldean priests
Bow to me, in adoration
Evangelize
Prophets ov the boundless joy
Sanctify the sin ov indulgence

We worship the sun
We worship the moon
Spreading like rats
Exalted above the stars ov god

All hail slain and risen god!
All hail Dionysus!

"Come, blessed Dionysius, various nam'd, bull-fac'd
Begot from Thunder, Bacchus fam'd
Bassarion God, of universal might
Whom swords, and blood, and sacred rage delight"

War be sustained!
My godless phoenix rise
Ne'er to lifeless shall I submit
Offering solely the sword not peace
Mercy and cowardice extinct within

We worship the sun
We worship the moon
Spreading like rats
Exalted above the stars ov god

All hail slain and risen god!
All hail Dionysus!
