Elapsed into a vortex dispersed in extinction  
Submerged where the oceans flowing streams carry  
the millions dead

Shattered remnants of the sacred godheads of a world  
In agony, pain, demonic screams, symbiosis of the  
unseen  
Consigned to the fiery lake of burning sulphur

Multitude of burning souls  
Reeking mist ascends from the ground  
Spirals of pungent vapour abscond in ghostly forms

Dissonant melodies in synchronicity  
Cancerous tunes looped into eternity

And let them be lights in the vault of the sky to give  
light on the earth

The unsung melodies on the altars unblessed  
Rupture of primordial instincts are entangled in erotic  
carnage of the flesh

A Crimson mask hollowing deeper in it's cavity  
The idle march on to the dawn of an abducted sun

And let them be lights in the vault of the sky to give  
light on the earth  
and so it was

Elapsed into the vortex of the dead

The sun turns into darkness  
The moon turns into blood  
The beast with ten horns is rising  
Upon it's seven heads the name of blasphemy

Elapsed into a vortex of death and extinction  
Spheres warped into unknown aeons of transience  
Recluse of the olden predictions  
Scribes of the heretic sages

11th hour. The golden dominion  
Bloodline of the millions dead

Shattered remnants of the sacred godheads of a world  
In agony, pain, demonic screams, symbiosis of the  
unseen
