Lies spat forth this ocean of hypocrisy  
Impending beings lurk in absolute ambiguity  
Roaming in illusory waters of depicted rapture  
Blinded through the ages of conceptual slumber  
In wait for the final hour in an ascendant crave  
Immure the ridden wrath within verses of hate  
Rid this embodied sore from it's bound existence  
Disburden the essence from it's somatic sufferance  
Unleash the utter rage within insane inscriptions  
Vivid writings portraying the aftermath of obliteration  
Lies spat forth this ocean of hypocrisy  
Impending beings lurk in absolute ambiguity  
Roaming in illusory waters of depicted rapture  
Blinded through the ages of conceptual slumber  
In wait for the final hour in an ascendant crave  
Immure the ridden wrath within verses of hate  
Descriptions of blinding light and unearthly  
experiences  
Recounts of disembodiment and transmigratory  
transilience  
Erased identities unfolding in repugnant deliria  
Metaphysical journeys narrated in utmost hysteria  
Descriptions of blinding light and unearthly  
experiences  
Recounts of disembodiment and transmigratory  
transilience  
Erased identities unfolding in repugnant deliria  
Metaphysical journeys narrated in utmost hysteria  
Fragility cast in words of imposed submission  
Feeble nature spreading since the hour of inception  
Bludgeoned through unhallowed reigns of lunacy  
Bloodlines disrupted within torrents of malignancy
