World of plagues  
Nest of disgusting filth  
To be taken to ruin and damnation  
All created must be raped

Into the night we whisper a prayer  
A black spell full of hate  
Full of horror and chaos  
World will perish in flames

Piece by piece your world will collapse  
Filling with emptiness  
Slipping to the end of your poor life  
Slowly but certainly

When the priests rape your children  
And fathers kill their families  
We stand behind you in the shadow of our Lord  
Breathing your agony

Let the horror and chaos come  
Let it flow freely through me,  
Like a black rapid stream  
Full of your immense hatred
