Visit "[Failure 617](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Why did the red alarm start?  
Which one can tell the reason why?  
There's a system failure  
It should be a bug

No, we've lost control! Nothing we can do!  
Failure 617! We have no solution!

No chance to find a way to stop the clones!  
Try to reset it all! Try until system is over: or this may  
be the end!

Failure left our slaves free yeah  
They now are all out of control  
They are crunching numbers  
They think by their own

No, we've lost control! Nothing we can do!  
Failure 617! We have no solution!

No chance to find a way to stop the clones!  
Try to reset it all! Try until system is over: or this may  
be the end!

No chance to find a way to stop the clones!  
Try to reset it all! Try until system is over: or this will be  
the  
End of our plan and a danger for the earth  
Nobody knows the way to stop our clones  
There's no way out!
