Friend, look at the sky, winds of storm, dark clouds of war  
And now, remember him, our mighty king, he died yesterday

BRIDGE:

He was a symbol of faith, he fought for peace and glory  
Lord, many battles he won, many lands he gained

CHORUS:

But now, we are alone, noone could make us win today  
King, protect our souls, enemies are coming  
SOLO - Matt Treasure

Silence comes over the field, dead warriors' blood on the ground (and I pray)  
Enemies sing for the victory, noone's left of us all (and I pray)

There will be the time for a revenge, the fallen kingdom will rise again  
We will live in a peaceful reign, no more tears we will shed

BRIDGE - CHORUS
