Houdini
Was it real or just a magic trick?
I believed
All your well-performed deceits

Houdini
Love can heal but Love itself can die
Disappear
Deep within your well-told lies

You had me mesmerized
I danced - And fell from Grace
Your eyes - You had me hypnotized
In trance - Amazed in grace

Houdini
What is real and what is fantasy?
I believed
Turned illusions into dreams

Houdini
Love can heal but Love can ruin your life
And it did
When I looked into your eyes

You had me hypnotized
In trance - Amazed in grace
Your lies - You had me mesmerized
I danced - And fell from Grace

Houdini
Was it real or just a magic trick?
I believed
I believed your goddamn lies

You had me mesmerized
I danced - And fell from Grace
Your eyes - You had me hypnotized
In trance - Amazed in grace
