I can't help it, I can't help myself when it comes to you
I can't help it, got no self-control, there's nothing I could do

I can't wait to be with you,
if I hold, you put your arms around me too
I have faith, I'll see it through cause tonight my wish will come true

I can't help it, I can't help myself when it comes to you
I can't help it, got no self-control, there's nothing I could do
(x2)

can't help myself...

I can't help it, I can't help myself when it comes to you
I can't help it, got no self-control, there's nothing I could do

I can't wait to be with you,
if I hold, you put your arms around me too
I have faith, I'll see it through cause tonight my wish will come true

I can't help it, I can't help myself when it comes to you
I can't help it, got no self-control, there's nothing I could do
