Yeah, yeah, yeah, do the Harlem shuffle
Yeah, yeah, yeah, do the Harlem shuffle
You move it to the left then you go for yourself
You move it to the right if it takes all night
Now baby kinda slow with a whole lot of soul
Don't move it too fast, just make it last
You know you scratch just like a monkey
Yeah you do real
You slide it to the limbo, how low can you go?
Oh come on baby, don't want you to stumble now
You just grove it right here to the Harlem shuffle
Yeah, yeah, yeah, do the Harlem shuffle
Do the Monkey shine now
Yeah, yeah, yeah, do the Harlem shuffle
Hitch, hitch hike baby, across the floor
I can't stand it no more
Now come on baby, now get into your slide
We're gonna ride, ride, ride, little pony, ride
Shake, shake, shake, shake your tail feather baby
Shake, shake, shake, shake your tail feather baby
Do the Monkey shine now
Shake, shake, shake, shake your tail feather baby
Shake, shake, shake, shake your tail feather baby
(Smoke, sweetheart, yeah)
(Then you move it to the right) Shake, shake, shake,
shake your tail feather baby (Shake it, shake it)
Shake, shake, shake, shake your tail feather baby
