Needle in a haystack, needle in a haystack, needle in a haystack, needle in a haystack

Well, well, I once believed that all fellas were nice
But girls listen to me, take my advice
Girls you'd better get yourselves on the right track
'Cause findin' a good man girls, is like findin' a needle
in a haystack, needle in a haystack, (I'm tellin' you,
girls) needle in a haystack (You gotta look before you
leap), (To find the natural facts) needle in a haystack
(Needle in a haystack)

Girls those fellas are smart, slick and sharp
So don't you ever let 'em catch you looking starry-eyed
They'll tell you that their love is true
Then they'll walk right over you
Now girls, you should know these things right off the
bad

'Cause findin' a good man, girls, is like findin' a needle
in a haystack, needle in a haystack, (I'm tellin' you,
girls) needle in a haystack (You gotta look before you
leap), (To find the natural facts) needle in a haystack
(Needle in a haystack)

Well now girls, I'm tellin' you the natural facts
'Cause findin' a good man, girls, is like findin' a needle
in a haystack (Needle in a haystack), needle in a
haystack (Needle in a haystack), (I'm tellin' you, girls)
needle in a haystack (You gotta look before you leap),
(To find the natural facts) needle in a haystack (Needle
in a haystack)

I'm tellin' you girls, you'd better look before you leap
Still water sometimes run very deep
You'll be sorry when you discover that you are just his
part time lover (Needle in a haystack)
Girls, you should know these things right off the bad
'Cause findin' a good man girls, is like findin' a (Needle
in a haystack) needle in a haystack (Needle in a
haystack), needle in a haystack (Needle in a haystack),
(I'm tellin' you, girls) needle in a haystack (You gotta
look before you leap), (To find the natural facts),
needle in a haystack (Needle in a haystack), needle in

a haystack (You gotta look before you leap), (To find
the natural facts) needle in a haystack (Needle in a
haystack), needle in a haystack (You gotta look before
you leap), (Needle in a haystack) needle in a haystack
(Haystack, haystack, haystack, haystack)
