

Belle Who **"Tide"**

I'm in love with the sound of goodbye
When everything falls apart
It's the soundtrack of our lives dark
The sweetest lullaby
Too long we've been living the lie
In the arms of the tide
Can't you see this will break your heart?
It's time to say goodnight

You can feel it on your skin
You can feel it on your skin
You feel it on your skin

The water is coming
We must stop running
Cold so cold
How long will we pretend
If this is the end
The waves will be taking us down together

No more I long for your call
Nor the love in your eyes
It's something I feared from the start
If I should stay here
I would just poison your heart

You can feel it in the air
You can feel it in the air
You feel it in the air

The water is coming
We must stop running
Cold so cold
How long will we pretend
If this is the end
The waves will be taking us down together

The water is rising
We must stop hiding
Cold so cold
We've started to descend
If this is the end

The tears will be gone with the flood forever

The water is coming
We must stop running
Cold so cold
How long will we pretend
If this is the end
The waves will be taking us down together

The water is rising
We must stop hiding
Cold so cold
We've started to descend
If this is the end
The tears will be gone with the flood forever
