Hot hot girl, hot girl, hot girl, hot girl  
She's a hot hot girl (girl), hot girl, hot girl, hot hot  
She's a hot hot girl, hot girl, hot girl, hot girl  
She's a hot hot girl, hot girl, hot girl, hot hot girl  
She's a hot girl

She couldn't be no hotter, lava drippin off her Prada  
Rodda  
\_\_, hottest Ti-juana mama  
She's a hot hot  
And I love the way you do it, got me feelin like it's  
humid  
Got 'em whoa-in, got 'em oh-in  
She's a hot hot  
And I melted when I felt it  
Turn it up, she got me burnin up I can't help it  
Hot hot  
He-y baby drive me crazy baby  
We could skip the club go home and fuck until we're 80  
baby

I been thinkin when I wit you I ain't blinkin  
Girl you know you float my boat and there ain't nothin  
that can sink it  
You ride it light a fire make you burnin makes you up  
and sippin, drinkin  
She the type you lock down, like you're sitting, get it?  
Spendin just to see her shakin poppin droppin  
bend it send it over to me baby 'cause I startup i wont  
finish  
I'm a menace with a fetish for the fittest, uh, she the  
reason for the fire that I'm spittin

Hot hot girl, hot girl, hot girl, hot girl  
She's a hot hot girl (girl), hot girl, hot girl, hot hot  
She's a hot hot girl, hot girl, hot girl, hot girl  
She's a hot hot girl, hot girl, hot girl, hot hot girl  
She's a hot girl

She buy me five seven twenty \_\_ baby \_\_  
\_\_ give this money

She's a hot hot  
She love to see me stuntin, how she loosen up her  
buttons girl, it's nuttin, I ain't frontin  
She's a hot hot  
She's a animal and beast, free, tryin to taste \_\_  
She the hottest and I mean heat  
Hot hot  
If you feelin what I'm feelin, baby we could make a  
killin, I just went into the sun  
Hot hot  
\_\_ give me lovin  
Turn my room into a oven \_\_  
Like she's motherfuckin cooler than the winter, hot as  
hell, she's a sinner  
If she touch it one more time I'm a have to put it in her  
Got me hungry, got me famished 'cause she's from  
another planet  
You just wouldn't understand it til you take advantage I  
can manage  
Yeah, and she's never ever overdone  
Wanna control her, try to hold the sun

Hot hot girl, hot girl, hot girl, hot girl  
She's a hot hot girl (girl), hot girl, hot girl, hot hot  
She's a hot hot girl, hot girl, hot girl, hot girl  
She's a hot hot girl, hot girl, hot girl, hot hot girl  
She's a hot girl
