Verse One:

Walk in the spot, lookin' fly,
at the corner of my eye, see a shorty tryna look my
way..
She knows what it is, and she knows who I am so I don't
got much to say..
She try to leave her man but he grabs her hand and
he screams out somethin' like hey, hey, hey..
(Bring it back)
Got petrone by my side and whole lota lime, it's time to
get it started..
You know what's on my mind, girl let's leave this party..
(Yeah)
I'm in love with how you move your body, hey, hey..
You got a question baby;

Chorus:

You got a question, girl I got the answer.. (Girl I got
your answer, yeah)
You can be my private dancer.. (You can be my private,

You can be my private dancer.. (You can be my

You, you can by my, you can be my private..

Verse Two:

Now I'm feelin' real good talkin' bout time she's on
me grindin' tryna get low..
Got bottles everywhere, but somethin' in the air,

let's make the world go slow..
And how you put it on me make me wanna scream out
whoa, whoa, whoa..

(Bring it back)
Got shorty by my side headed to the ride em, like let's
get this started..
Cause you know what's on my mind, girl I'm being
