Untame my brain
Give me a name
Hear my faith
Seal my fate

Unholy and dirty words I gathered to me
Thinkin' the point was keep what's mine for me
While he's laughing

Hear my faith
Seal my fate

And when you breathe, you breathe for two
And if you think you finally found the perfect light
I hope it's true

Unholy and dirty words I gathered to me
Thinkin' the point was keep what's mine for me
And he's laughing

On every track I fractured every back
Thinkin' the point was step on every crack
Well he's laughing

Hear my faith
Seal my fate
Hear my faith
Seal my fate

And when you breathe, you breathe for two
And till you think you've finally found the perfect light
I hope it's true

Said you saw him laughin'
I hope it's true
I'd like to see it happen
I hope it's true
'Cause I can feel it
I hope it's true
