

## Belly "So Cold"

Visit "[So Cold](#)" on MotoLyrics.com

They tried to starve me,  
To stop my heartbeat,  
I thought they had my back,  
I thought they used to watch me, now,  
What they did, they made my heart freeze,  
now im so cold, look what they did,  
They made my heart freeze

They tried to stomp me,  
To stop my heartbeat,  
I thought they had my back,  
I thought they used to watch me, now,  
What they did, they made my heart freeze,  
now im so cold, look what they did,  
They made my heart freeze

There is a fire inside me,  
im ice cold on the surface,  
see I swear they don't know,  
how hot the fire is burning,  
revenge is best served cold  
my heart is frozen, preserved it,  
I'm standing ten feet of snow,  
Patiently waiting to serve it,  
Do we deserve it?  
Man my life was so cruded,  
No money, but we was a fam,  
When you was a nobody,  
Put you on your first track,  
Knew that you was goin run it,  
And they ask me why the f\*\*k  
im so cold blooded,  
Hustle and flow money,  
Couple of snow bunnies,  
I got rich  
and got the whole squad froze honey,  
I heard your money  
comin slower than frozen honey,  
coppin canary diamonds,  
im shining like froze honey,  
we started on the corners,  
toes cold, nose runny,

I made a killin and still  
im spending my old money,  
if you don't want it then,  
don't start it,  
they go hard, I go hardest,  
you the reason im cold hearted,

They tried to starve me,  
To stop my heartbeat,  
I thought they had my back,  
I thought they used to watch me, noww,  
What they did, they made my heart freeze,  
noww im so cold, look what they did,  
They made my heart freeze

They tried to stomp me,  
To stop my heartbeat,

I thought they had my back,  
I thought they used to watch me, noww,  
What they did, they made my heart freeze,  
noww im so cold, look what they did,  
They made my heart freeze

They made my heart freeze,  
But what I spit is what you call heat,  
My life is rhyming on my heartbeat,  
This why the flow is so cold,  
Ya all know you're the reason im so froze,  
Below, ohh, wooh,  
I guess no one inferno,  
the man is so cold,  
I could burn you,  
The storm is still brewin internal,  
This why they get the shivers from,  
Every page they turn in my journal,  
They left me stranded,  
But way less than half the chance,  
I had to turn the snowflake to an avalanche,  
For real them, seeing the picture much clearer,  
Dress warm when you near  
is freeze when you hear em,  
Im used to it,  
when they tried to cold grill em,  
Im like you must be frostbitten,  
if you don't feel em,  
They like your attitude is so cold,  
Im like is because of you my heart froze,

They tried to starve me,  
To stop my heartbeat,

I thought they had my back,  
I thought they used to watch me, noww,  
What they did, they made my heart freeze,  
noww im so cold, look what they did,  
They made my heart freeze

They tried to stomp me,  
To stop my heartbeat,  
I thought they had my back,  
I thought they used to watch me, noww,  
What they did, they made my heart freeze,  
noww im so cold, look what they did,  
They made my heart freeze

F\*\*k it,  
Ya made me like this,  
the old me was a lot nicer,  
Haha,  
ya made my heart freeze,  
I swear ta God ya make ma heart freeze  
ya made my heart freeze,  
I swear ta God ya make ma heart freeze
