Come Along, Come Along, Come Along with me  
There's a place up ahead where we can be  
Thru the trees thru the river thru the midnight sun  
If we leave tonight we'll get there soon  
We leave tonight,  
We'll get there someday  
Slip away  
Slip away, slip away with me there's a place, there's a  
place, trust in me thru the rain thru the storm thru the  
midday moon, if we leave tonight we'll get there soon  
If we leave tonight  
We'll get there someday  
It's not so far away, if we leave tonight not so far away  
just take my hand  
Ride along, ride along, ride along with me  
Take the torch grab my hand now just believe  
Thru the fog thru the midst thru the haze of dawn  
If we leave tonight, we'll get there soon  
If we leave tonight, we'll get there someday  
It's not so far away  
If we leave tonight  
It's not so far away
