

## **Beloved "For Your Love"**

Visit "[For Your Love](#)" on [MotoLyrics.com](http://MotoLyrics.com)

for your love  
there's a place in my life i will give to you  
for your love  
every beat of my heart every day  
for your love  
i will travel the world i'll go anywhere  
for your love  
all the days of my life for your love  
for your love  
for your love, oh yeah

i woke up and i felt such a feeling  
well i guessed it must be one of those days  
when you wake up you're already reeling  
and your mind spins off in millions of ways

well it felt like the dream i'd been dreaming  
it's a dream that leaves me feeling brand new  
when i dreamed it last night i was dreaming of you

for your love  
there's a place in my life i will give to you  
for your love  
every beat of my heart every day  
for your love  
i will travel the world i'll go anywhere  
for your love  
all the days of my life for your love  
for your love  
for your love, oh yeah

well i know you've been asking me questions  
and i said i'd never tell you no lies  
(no lies)  
but i've always been up for suggestions  
and you thrill me with that look in your eyes  
(look in your eyes)

if you told me that i was a dreamer  
i could tell you that dreams could come true  
(come true)  
every dream that i dream is a dream about you

for your love  
there's a place in my life i will give to you  
for your love  
every beat of my heart every day, hey, hey  
(hey, hey)  
for your love  
i will travel the world i'll go anywhere  
(i will go anywhere)  
for your love  
all the days of my life for your love  
for your love, for your love, for your love

for your love, for your love, oh yeah  
for your love, for your love, oh yeah

(i would go anywhere, i would do anything)  
(i would give everything for your love)  
(i would go anywhere, i would do anything)  
(i would give everything for your love)

for your love  
there's a place in my life i will give to you  
for your love  
every beat of my heart every day, hey, hey  
(hey, hey)  
for your love  
i will travel the world i'll go anywhere  
(no i don't care)  
for your love  
all the days of my life for your love  
for your love, for your love, for your love

for your love for your love, oh yeah  
for your love for your love, oh yeah

(i would go anywhere, i would do anything)  
(i would give everything for your love)  
for your love for your love, oh yeah

(i would go anywhere, i would do anything)  
(i would give everything for your love)  
for your love for your love, oh yeah
