

Beloved "New Wine"

In the moment captured by sweet tasting blood
My cup overflows, send us your love (full of your love)
As my thirst grows, I find it hard
To trust all those, so send us your love (send us your
love)
Your face is all I see
It brings me to my knees
And I lift my hands up to the sky
Restore us, o God, upon us, let your light shine
Although I know youre close, I feel so far away
This pictures not the same without you here (send us
your love)
With my arms outstretched, this emptiness will
embrace the light
So embrace this heart, (send us your love) never again
will it be dark
Your face is all I see
It brings me to my knees
And I lift my hands up to the sky
Restore us, o God, upon us, let your light shine
(New wine) all I see
(New wine) takes a part of me
(New wine) and I lift my hands up to the sky
(New wine) restore us o God, upon us, let your light
shine
Lord, (new wine), I see
The truth is (new wine) in front of me
I lift my hands up to the (new wine) sky
Restore us o God, upon us (new wine) let your light
shine
So break this heart
Break me
So break this heart
Break me
