When the people lead  
The leaders they will have to follow  
And all their lies and their alibis  
They will have to swallow  
And it's you, you, you that has the authority  
For the one who is right  
Is the majority

Yes when the people lead  
People take the lead  
Children you've gotta take your lead  
Or you shall be led astray

So as long as someone else  
Controls your history  
The truth shall remain just a mystery  
But you can lead a horse to the water  
You cannot make him drink  
You can put a man through school  
But you cannot make him think

When the people lead  
People take the lead  
Children you've gotta got to take your lead  
Or you shall be led astray

Watch them try to hide  
This world's imposition  
But like disease that has come 'round  
From remission  
And when it seems  
As if it has left your left your person  
All the while only has only worsened

When the people lead  
People take the, take your lead  
People take the lead  
People take the lead  
People take the, take the lead  
People take the lead

Children you've gotta take your lead

Or you shall be, or you shall be  
Don't let them lead you astray  
They'll try to lead you

People take the lead  
While you're cracking  
Let them take your lead  
Take your lead
