If I Could Tell You How Much I Loved You,
Then You Would Know I Would Never Be Without You,
My Only Wish Is To Be There For You,
Out After Midnight Walking In Moon light,

Do you still bowl around after dark
Blowing your hope and your smoke in the rain
I lit a little fire off your chimney spark
And I knew then I would never see you naked again

The whole world is our playground
The whole world is our playground
Take the night by the hand
And set it on fire again

If I hear this song on the radio
I swear I'll go out of my mind
But I try not to think about you every minute or so
But they, they... sold you as a prize

The whole world is our playground
The whole cell is our playground
Take the night by the hand
And set it on fire again

I don't know, I don't know, I don't know
I don't know how to begin
This song I hide away
But I know that you know
And I know that you've been where I've been
Seen what I've seen that was too far away

The kitchen light is too bright
And the light in your mind is a sin
It's killing me everyday
It's healing me everyday
