Oh, you got to, you got me, you got me

You go to take all the living
We got to give what we're given
'Cause we're living a lie

'Cause loving you is easy and it's forever
It feels so good when we feel together
Loving you is easy and it's forever
It feels so good when we feel together

Can't deny
I just know it's what you feel inside
Let it go
And we'll find a way to hold our love

'Cause loving you is easy and it's forever
It feels so good when we feel together
Loving you is easy and it's forever
It feels so good when we feel together

We got to hold all that we do
You go to take all the living
And so we get what is true

No breaking down, just take our time
We got to give what we're given
'Cause we're living a lie

Don't know why
You make me turn inside
I found the way to hold our love
And now I know, I can't let go

'Cause loving you is easy and it's forever
It feels so good when we feel together
Loving you is easy and it's forever
It feels so good when we feel together

We feel together
We feel together
Loving you is easy

And it's forever

We feel together
We feel together
Loving you is easy
And it's forever

We got to hold all that we do
You have to take all the living
And so we get what is true

No breaking down, just take our time
We got to give what we're given
'Cause we're living a lie

We got to hold all that we do
You go to take all the living
And so we get what is true

No breaking down, just take our time
We got to give what we're given
'Cause we're living a lie

Loving you is easy and it's forever
It feels so good when we feel together
I said, loving you is easy and it's forever
It's feels so good
