The last
The last time we did this
It was late in november
You curl up on my couch
You wanna catch
Snowflakes on your tongue
But you don't try
You don't wanna look bad
In front of your boyfriend
Well I don't blame you
Well I don't blame you
Don't blame you
I don't blame you

The only thing I want to do
Is to drive home to you
But we both know that isn't true
You were never mine to lose

Oh you know
I was just to afraid to say anything
I don't wanna hurt you
Or lose you
And I don't blame you
No I don't blame you
No I don't blame you
No I don't blame you

The only thing I want to do
Is to drive home to you
But we both know that isn't true
You were never mine to lose

Aaahh...
