"Swing City"

Visit "[Swing City](#)" on [MotoLyrics.com](#)

Swing high, swing low
Swing me, Swing City
The pendulum moves, the pendulum grooves
Swing me, Swing City
Streets flow like rivers, the market place is a
fountain
Buildings so big they compete with the
mountains
Between the new and old, what we think and
what we're told
Breathing in and out
There's a spot to learn the value of integrity
Body and soul will be one song
Swing high, swing low
Swing me, Swing City
The pendulum moves, the pendulum grooves
Swing me, Swing City

It's not Compli City
It's not Simpli City
The pendulum moves, the pendulum grooves
It's Swing City
The motion of the swinging makes it right
Down to the bone, to the core
But can I stay in tune without the fight
When that was all I did before?
Swing high, swing low
Swing me, Swing City
The pendulum moves, the pendulum grooves
Swing me, Swing City
It's not Publi City
It's not Authenti City
The pendulum moves, the pendulum grooves
It's Swing City
