Don't try to tell me what's not right  
That kind of thing is just a state of mind  
Don't talk to me about natural highs  
I'm a one track mind kind of guy  
Chemical buzz

Don't try to tell me what's not real  
I've seen it all and it's no big deal  
This kind of kick doesn't lose its appeal  
So let me tell you how it makes me feel  
Chemical buzz

Don't try to tell me what's not true  
I ain't gonna do what you want me to do  
This world is full of people just like you  
You play the game but you were born to lose  
Chemical buzz
