When I did what I was told I thought I'd be  
A better person than what I turned out to be  
Sacrosanct in the sacred society  
What's working for you  
Wasn't working for me  
Now I live each day as if it were my last  
Learning lessons from the sins of futures past  
Death rattle shaking there's a knock at the door  
Laid out on the floor

Now I wait, at the gate  
Now I wait at the final gate

Tell me what my fate is as I stand at the gate?

You're the rebel when you stood on mountains high  
Sentimental now that it's your time to die  
In the middle of your precious plans and schemes  
It's looking to me  
Like they don't mean a thing  
Never gave a thought of what you put them through  
Never stopped to think the problem came from you  
Grim reaper calling I think you know what he's after  
Hanging from the rafters

Now you wait  
Moon is full, stars are bright, seems like the fates have  
aligned  
Now you wait At the final gate  
Sun is high, cloudless sky, looks like a good day to die

The walls are closing in don't know where to begin  
As I wait at the gate  
The bell it tolls for me, tell me how this can be, as I  
wait, as I wait at  
The gate.

Now I wait at the gate  
Now I wait at the final gate  
Moon is full, stars are bright  
Seems like the fates are aligned  
Sun is high, cloudless sky

Looks like a good day to die  
Hello your life is calling and now your skies are falling.
