Caged inside you I see all  
See through your subconscious walls  
In the darkness there is light  
A beacon shining in the night

Speak to me for I have seen  
Signs of the impending storm

Talk to me, how shall I proceed?  
What is this strange voice that softly warns?

I am the bastion  
Created from pure light  
I am the beacon shining in the night

I am the portal  
The window to your soul  
I am the essence that makes your whole

I am the seer  
Open your eyes to see  
I am the seer SEE ME  
Somehow you must believe

Cautiously, I start to perceive as all  
My senses work as one

They're touching me, pulling me, calling me,  
Begging me forth into the unknown

The staff of wisdom  
Is held within my hands  
These signs and visions  
Will lead you to the Promised Land

Now let me show you  
Forbidden shores  
And let me take you  
To Nevermore

I am the seer Open your eyes to see  
I am the seer SEE ME

Somehow you must believe

May you listen to the voice - From the cradle to the  
grave

May you make that final choice - Born of windsom of  
the age

May you never slip and fall - Beyond this world

May you answer to the call!

Into the darkness we must bring light and be

As beacons shining in the night

So let me lead you unto the shore,

We are forever forevermore

I am the seer

Just look inside and you'll see me, somehow you

musst

Believe me, I am ALIVE SEE ME!
