Dying, crossing the Styx to the other side
Entering abysmal world
Feeling extreme coldness from winds of hate
To endly regret past mortal pain

Listening to the howlings
Sleeping without dreaming
Pictures of murderous scenes where blood and tears
mix together
To create a morbid essence

Entrails burn from inside, face the beast, unleash hell
now
Bloodbath torture the weak, skin the lamb, unleash hell.

Blackness of my thoughts still so deep
Lightning of wrath fall on flesh

Mass decayed, putrefying, submitted flesh gives itself
up
To the torments of a mad spirit, slow beheaded, deep
delight
Dust away, burst the eyes, human belief falling insane
Crows eating corpses remains
The scorching heat and dismal fear reinforce the sick
feeling

Drowning in death's anguish
Darkness fires unleashed
Demons devour the heart
The mind is torn apart

From the torrents of blood flows eternal hate
Mountains of cadaverous faces left to their sad fate
As the macabre essence essence becomes great red
sea
Anger into the glance becomes euphory
Murderous delight

A mind eclipse, corporal possession will
Senses supreme annihilation
Each step in life still a step to death.
