the tears are warm  
I'm washing off last night  
I wish I would've slept through it  
I wish I didn't know what you did  
one signle though  
going over and over in my mind  
I don't own you  
and you don't owe me a goddamn thing

but I wish it was me  
it's never been, it'll never be  
you can say that it didn't mean a thing  
but it means everything and it's killing me

oh, well, here's to luck  
I could walk away now and forget  
your name, your face  
and forget how much it hurts  
but I never forget that I love you  
and I would never forget I could never have you  
this all means something  
this means I give up

and I don't about you  
and I don't give a fuck who you fuck  
and when the one you left for leaves you  
I won't come back
