Hey, hey, yeah, hey, yeah

I know the kind of love you're searching for
You're looking for a love that lasts forever
But holding me tonight, you can't be sure
I might be the answer you need

We can make this dream come true
I can make it real for you
You won't find another who will love you like I do
'Cause I, I want to get you in my world

Lonely times when you've been cold and wishing
You're living with a wall around your heart
You may never find the love you're missing
Baby, baby, baby, take your chance on me

We can make this dream come true
I can make it real for you
You won't find another who will love you like I do
'Cause I, I want to get you in my world

All the time you're wasting holding back from me
So much love here waiting can't you see
We could be so good
If you'd just come into my life, yeah

We can make this dream come true
I can make it real for you
You won't find another who will love you like I do
'Cause I, I want to get you in my world

How can I get you into my world
How can I get you into me
How can I get you into my world
If there's a chance I'm gonna find a way

How can I get you into my world
Why can't you find your way to me
How can I get you into my world
Baby, how can I get you

We can make this dream come true
I can make it real for you
You won't find another who will love you like I do
'Cause I, I want to get you in my world

We can make this dream come true
I can make it real for you
You won't find another who will love you like I do
'Cause I, I want to get you in my world
