YOU TOOK THE WORDS RIGHT OUT OF MY HEART

Benny Goodman

You took the words right out of my heart
And it was like a bolt from the blue
You took the words right out of my heart
When you said I love you.
When you said I love you
I stood in a daze for a while
For I felt that way too
The moment I saw you smile
I had the words and you in my heart
There wasn't room for the two
You took the words right out of my heart
And left only room for you
