You've got something that's been on your mind  
You're lookin' for peace and you're hopin' to find it  
There is only one who can give it to you.  
What we're doin' and what we say  
We're gonna have to stop and think one day  
And you might not know where the next step comes  
But there's one place that you gotta get away from

Chorus:

No man's, you gotta get out of no man's land  
You gotta run across  
As fast as you can  
You can't walk and you can't stand  
'Cause it really isn't in God's plan  
And life ain't worth livin'  
If you're livin' it in no man's land

When I think back over my life  
So much was wrong that nothin' seemed right  
And there were times I didn't know where I was goin'

I can remember very clearly then  
Just about the time was givin' in  
I heard a voice and these words were said,  
"You can't stop here, no, you gotta move ahead."  
'Cause you're in—

(Chorus)

Well, I don't know  
What you've been told  
But there's one thing that's certain  
The Lord will take you  
Right on through  
'Til in your heart... you're free

What you're doin' and what you say  
You're gonna have to stop and think one day  
And you might not know where the next step comes  
But there's one place that you gotta get away from

(Chorus)

Livin' it in no man's land  
Life ain't really livin', no  
Livin' it in no man's land
