"America"

Take these lines and blow away
Live your lives do what they say
I don't like the things you do
All the things you put me through

(bridge)
After everything is said and done
Will that be enough?

(Chorus)
Here we go
Love it or leave it alone
When the world is spinning on a dime
Hurry up and waste my time
Here we go, here we go, here we go

Take away this foolish pride
Cuts me up so deep inside
I can't believe you've come this far
I don't believe in who you are

(bridge)
After every game is played and won
It's still not enough

(chorus)

So this is life in America
I'm so disappointed
This is life in America today

(Chorus to fade)
