Everybody's says you must be crazy
Leaving everything to learn
You better stay where you are
Don't reach for the stars
You know you're gonna crash before you burn
But now you know we love the life we're living
Living everybody's dreams
Just look at us now
We're out of the town
So check it out
On your cosmic screen

Lights, music, camera, action
Here's another one comin' atcha
You know who's our headline news with
Music that will make you move
Lights, music, camera, action
Now we know we got your attention
We're taking that sound overground
Nothing's gonna stop us now

Are you ready for this?

Before we're getting for the platinum baby
We'll be playing all the tunes
We'll be shaking that, working that
Oh we're stepping out in Gucci shoes
So now we're heading with the lifestyle, uh
Rewriting all the rules
From London, New York, Tokyo
Here's a word
Come on the girls

Lights, music, camera, action
Here's another one comin' atcha
You know who's our headline news with
Music that will make you move
Lights, music, camera, action
Now we know we got your attention
We're taking that sound overground
Nothing's gonna stop us now

Pick vocation, new vibration
Wanna go, time's up
Ready for action, oooh, oh

Lights, music, camera, action
Here's another one comin' atcha
You know who's our headline news with
Music that will make you move
Lights, music, camera, action
Now we know we got your attention
We're taking that sound overground
Nothing's gonna stop us now

Making the move
Loving the life we're living
We're keeping it coming
You know I love it
Baby

Lights, music, camera, action
