Feels kinda funny without no money  
Life ain't easy and it just don't please me  
Pain and sufferin' has been a part of our life  
Don't worry no more, my blues will make you feel just  
fine

The kids don't understand when I speak this way  
I try to make 'em realize that the blues will never go  
away  
Pain and sufferin' has been a part of our life  
Ain't gonna worry no more, my blues will make you feel  
all right

Feels kinda funny without no money  
Life ain't easy and it just don't please me  
Pain and sufferin' has been a part of our life  
Don't worry no more, my blues will make you feel just  
fine

I try to make 'em realize that the blues will never go

Ain't gonna worry no more, my blues will make you feel
