Goodbye little girl
I won't be seeing you again
Yeah goodbye little girl
I won't be seeing you again
We had a lot of fun together
But all good things come to an end

I just been your funny clown
Some one you might have around
Yeah I've been your funny clown
Some one you liked having around
Someone to keep you happy
While your true love is not in town

Goodbye little girl
Please don't beg me to stay
Yeah goodbye little girl
Please don't beg me to stay
Is that the tear in your eye
Let your true love guide a way

Goodbye little girl
Please don't beg me to stay
Yeah goodbye little girl
Please don't beg me to stay
Is that the tear in your eye
Let your true love guide a way
