While it's raining tonight baby
Cause our love is no where found
There's confusion all around me
I can't tell what's up from down

Why must I feel this way
Why can't love work out right
Caught in these storms of life
I'm searching for a higher ground
I'm caught in these storms of life
When a heart beat can't be found

You said you be there for me
Through thick and thin
I was a fool to believe
The lies you told me in the end

Why must I feel this way
Why can't love work out right
I'm caught in these storms of life
I'm searching for a higher ground
Caught in these storms of life
When a heart beat can't be found

I wanna be found, found, found
Can I be found, found, found
I wanna be found, found, found
Pulled from these storms of life
Pulled from these storms of life
Storms of life, storms of life
Pulled from these storms of life

I wanna be found, found, found
Can I be found, found, found
I wanna be found, found, found
Pulled from these storms of life
Pulled from these storms of life
Storms of life, storms of life
Pulled from these storms of life
