Find Some Love
Randy Bachman - Fred Turner

We always find you on the inside looking out
You dreams are always soaked in rain,
Sun just don't come out
Somewhere in the distance you can hear the games
begin
Your hopes are up but still you know,
Your ship ain't comin' in

You say it's love, that you're looking for
Well it won't walk through your front door
Get in the race, get something goin'
You gotta find some love
You gotta find some love

Livin' in the city ain't that easy gettin' stuff
You'll find your share of chills and thrills
But you just can't get enough
The music there will rock you hard
The women sooth you soul
There's nothing there that you can't get,
So you ain't goin' home alone

You say it's love, that you're looking for
Well it won't walk through your front door
Get in the race, get something goin'
You gotta find some love
You gotta find some love
You gotta find some love
You gotta find some love

Love is like a hurricane,
Love can fall apart
Love is like a ball and chain,
And love can break your heart

The moon tonight is freezing bright but hides behind
the clouds
You walk alone along the streets,

The silence screams out loud
It's getting late, you sit and wait,
Hopin' that she'll show
And if she's never commin' back,
You'll probably want to know

You say it's love, that you're looking for
Well it won't walk through your front door
Get in the race, get something goin'
You gotta find some love
You gotta find some love
You gotta find some love
You gotta find some love
You gotta find some love
You gotta find some love
You gotta find some love
You gotta find some love
You gotta find some love
You gotta find some love
You gotta find some love
Find some love
