I've Seen The Light
Fred Turner

Workin' down round the corner
Things were good and that's a fact
I've been workin' down round the corner, baby
Got so bad I can't go back
There ain't nothing they can do for me
I'm on my own, I've been set free

Looked in the mirror tonight
Saw the face of fear starin' back at me
All night I've been awake,
Wish it was a bad mistake
It's real, they won't deal

I've seen the light, whoa baby, I've seen the light
I've seen the light, I've seen the light
I've seen the light, whoa baby, I've seen the light
I've seen the light, I've seen the light

The boss was on the blower
Said the bottoms fallen' out
Yah the man was in a fever pitch
What we worked for was in doubt
Said he had to cut the excess fat
We were it, and that was that

Looked in the mirror tonight
Saw the face of fear starin' back at me
All night I've been awake,
Wish it was a bad mistake
It's real, they won't deal

I've seen the light, whoa baby, I've seen the light
I've seen the light, I've seen the light
I've seen the light, whoa baby, I've seen the light
I've seen the light, I've seen the light
If there's one thing that this teaches me, I'm on my own
I've been set free
I've seen the light

Sittin' high up on the rooftop
Starin' at the street below
Sittin' high up in the shadow
Seemed the righteous place to go
Felt the anger closin' in on me
Reached way down deep I set it free

Looked in the mirror tonight
Saw the face of fear starin' back at me
All night I've been awake,
Wish it was a bad mistake
It's real, they won't deal

I've seen the light, whoa baby, I've seen the light
I've seen the light, I've seen the light
I've seen the light, whoa baby, I've seen the light
I've seen the light, I've seen the light
If there's one thing that this teaches me, I'm on my own
I've been set free
I've seen the light, oh baby, I've seen the light
I've seen the light, I've seen the light
I've seen the light, oh baby, I've seen the light
I've seen the light, I've seen the light
Oh baby, I've seen the light
I've seen the light, I've seen the light
