No matter how you put it  
You're making excuses  
You're getting nervous, huh?

If that girl's so great  
Why don't you just go with her

You're dressed up all flashily  
You've got some silver on  
You're staggering about  
Who are you trying to appeal to?

I won't forgive you  
For turning your head away  
I love you, I love you, I love you  
Please say I love you, yes  
Right here

Special generation love  
I believe in fate  
Even if a million years pass  
My love will be f-i-r-m

Special generation love  
I don't hate you yet  
In the subway  
More so than you have in the past, l-o-v-e m-e!

When we're together  
No matter where we go  
It seems like it takes forever

If I don't make a decision  
Nothing is going to start happening

Pushing and pulling  
I just can't  
Seem to get good at it  
I just move straight ahead

It's like everyone  
Is surprised

Embrace  
Me, me  
With a passionate love  
An! Hold on my love

Special generation love  
I don't feel lonely  
Even if I go through Ikebukuro  
My love will last fo-re-ver

Special generation love  
Don't let me, I won't leave you  
More so than yesterday, more so than right now  
Tomorrow, I-o-v-e m-e!

Special generation love  
I don't feel lonely  
Even if I go through Ikebukuro  
My love will last fo-re-ver

Special generation love  
Don't let me, I won't leave you  
More so than yesterday, more so than right now  
Tomorrow, I-o-v-e m-e!
