What kind of curse has been cast  
Upon our people today?  
It seems the minds of our youth  
Have been eaten away  
Our elders are corrupt and weak  
The sane are stifled when they stand to speak  
How much more of this madness  
Are we able to take?

[CHORUS:]

Are you ready to stand  
Toe to toe with the fire?  
Are you ready to stare your fate in  
The face? Our time is running out-  
We're down to the wire  
Have you got what it takes  
To stand up for your Race?

The killers of our people

Wear an old disguise  
We're wathing them kill us  
With our own eyes  
Or are we just too blind to see?  
They've been after our souls for centuries  
Let's put an end to this madness  
Once and for all

The fight for our Race  
Is an old familiar fight  
But self-preservation is our duty  
And out final right  
Through few of us are ready to give  
It's gonna take a war for our people to live  
The beauty of our children will  
Be our reward
