I got my pride,  
Won't put my hands up  
Won't run and hide,  
Can't you see I've had enough?  
No one can tell me  
That what I'm doing is wrong  
I've got a vision  
That may come true before it's too long

I look around me lately  
These days you can never tell  
Whose your friend or foe  
Before it's too Late  
Stay silent, act alone  
The future is ours  
We must be patient  
Survival is our history  
And our fate

[CHORUS:]  
A Vision for the Future  
Based on the lessons from the past  
A Vision for the Future

Based on the lessons from the past

I look ahead  
Don't quite know what I see  
But I know just what I want  
I've got hard work ahead of me  
And I look behind me  
I'm not ashamed of where I've been  
But I've got to live  
Ain't gonna make the same mistakes again

'Til someone comes along  
Who makes some sense to me  
I'll follow nothing more  
Than what my own two eyes can see  
We're tired of being used  
I won't play nobody's fool  
My kind's a breed apart

Not bodyguards or front line tools
