"Closer"

Visit "[Closer](#)" on MotoLyrics.com

You're closer to me than I've ever been
You move so close
You're skin beneath my skin
I will melt with you
Water seeping through
You're closer to me than you were before
And I can hear you breathing at my door
I will melt with you
Water seeping through
This day is quiet
I can almost hear your name
This day is quiet
I will never sound the same
You're closer to me than I can recall
And I will take you with me when I fall
I will melt with you
Water seeping through
This day is quiet
I can almost hear you smile
This day is quiet
I can almost scream a mile
Feel me
Heal me
Soothe me
Breathe me
This day is quiet
I can almost hear your name
This day is quiet
I will never sound the same
Water seeping through
