"My Religion"

In the south SATAN on the throne, surrounded the fire
from everywhere

In the east LUCIFER proud, his power is the air

In the north great BELIAL, will rule over the world

In the west LEVIATAN, displaces a water abysses

I am standing alone like a exile, condemn but proud

I am not blind men ,like you - erring sheeps

My body hurts, but my soul fells full of delight

I hold u my hands high, and call the power of dark

The four sides of the world , I bow low my head

The greatest four sides of the world, I bow low my head

The four mighty gods, I go down on my knees

The time of truth will become, the time of left path!!
