

Beside Me

"Nothing Less Nothing More"

Visit "[Nothing Less Nothing More](#)" on MotoLyrics.com

When I think of happiness
I think of times when I was with you
When I was yours and you were mine
Those were the best days of my life
And I wouldn't think twice to go back in time
But I guess this is the way you want it to be

Well I'm sorry but it's so hard for me
Because you were my first everything
And I will say time will bring

Something new for me

Deep down inside your heart I will remain
Locked away I will stay
You and I both know we will never forget
I was your first everything

And when you take the fall
Well I hope you don't fall as hard as I did
I dropped to my knees
Had to pick up the pieces of my shattered heart
