

Beside Me "Please Don't Wake Up"

Visit "[Please Don't Wake Up](#)" on MotoLyrics.com

I remember when you said I was your best friend
Well I hope this knife will be your new friend
When your all alone thinking about me
I know this knife will be your closest friend

Well I hope you cry yourself to sleep tonite
Then maybe you might know what it's like
Well I hope you fall asleep tonite

And don't want to wake up again

I remember when I kept you warm at night
Well I hope this noose will keep you warm tonite
When your all alone thinking about me
Take this bottle of tylenol it's the remedy

I just want you to know what I go through
Every night without you
