Under the water there's nothing but blue,  
Surrounding me, surrounding you.  
We'll just have each other, in this deep dark world,  
Fingers clasped, with your mermaid girl.

Everything that hurt you up above will drift away.  
The only thing you'll need is our love.  
We'll live in the waves.

Under the water you won't feel cold,  
You won't feel pain, you'll never grow old.  
We'll just have each other, in this deep dark world,  
Till the end of time, be your mermaid girl.

Everything that hurt you up above will drift away.  
The only thing you'll need is our love.  
We'll live in the waves.  
We'll live in the waves.
