"Second Chance"

I think about the one I left,
It's been many long years.
And now I see with my last breath,
I could have made my home here,
With you.

I always saw the road ahead,
Dreamt of a distance skyline.
Now all I have is in this bed,
And for the first time,
I'm right here.

Give me a second chance, second chance, second
chance,
To make amends, make amends, make amends.
I know that I would do what's right,
With a second chance, second chance, second chance
at this life.
