Well I must be mad
Mad as hell about you
You've got me mesmerized
Those funny things you do
So lock me up
And throw away the key
Visions of your smile
Open doors and sets me free

I'd recite your every word
I'd carve your beauty into stone
I'd place a thousand candles
Bright for you to find my home

I'm yours
Be mine
Take this hand I stretch out
Honest
Please know
Girl your all i think about

Can we can we get away
Can't match your beauty inside
Can we can we get away
I'll never ever leave your side

Well it might take
A while for us to go
The little time spent with you

Where did the hours go?
And I'll watch
The gracious way you walk
Reach across and hold your hand
And listen to you talk

I'd fly across the world
I'd wait for you out in the rain
Call you up before you sleep
Just to hear your voice again

I'm yours

Be mine
Take this hand I stretch out
Honest
Please know
Girl your all i think about

Can we can we get away
Can't match your beauty inside
Can we can we get away
I'll never ever leave your side

I want to be with you
More than you know
I want to protect you
More than you know
I want to hold you
More than you know
