"Come A Day"

Visit "[Come A Day](#)" on MotoLyrics.com

Come a day I'll walk this earth
Where steps are taken sure
Come a day though it seem far away
Lines that bind are pure

Had to find it
No way round it
Quick sand had a chance...

So come, come on, come a day
Your eyes are where I'm right at home
Come a day though it seem far away
Stare bears love from stone

Gentleness is what precedes
Before and past the deed
Unafraid of caves and cobwebs
Shade can fade the hate

Time won't let you deny
Time will kiss you goodbye
We will leave you alone
We will leave you

Time extends you a hand
Time defends your command
We will leave you alone
We will leave you

So come a day x3
