Windy autumn  
Evening by the river  
Stands a man  
A man and gabrielle

Real looker  
Her back began to shiver  
Reminders of the months  
Under his spell

He spoke in measure  
She recognized his rhythm  
Been a year  
A year without a sound

She saw it comin  
In gestures he delivered  
Her eyes just kept  
The ground....

Cause gabrielle  
Has learned to tell  
The gap from  
False to real

And needs a man  
Who's sane at hand  
In tenderness  
Revealed

(he goes) I acted badly  
Can you understand me?  
The prace I'm making  
Cause I'm a changed man

(I was) such a fool  
In how I used to trat you  
Such a fool  
To beat you out of life

Gone the days  
I leave you with no traces

Gone the day  
You hate to see my face

I know it's late  
I sweat and hesitate  
Wouldn't it  
Be great?

Cause gabrielle  
I mean you well  
And we have healed  
In time

For all the girls  
In all the world  
It's you I seek  
To find, gabrielle

She stood dazed  
Nude in amazement  
She heard his words  
A hundred times again

A fantasy has haunted her  
For ages  
That fantasy had now become  
Her friend

She came upon  
An earring in the street  
Tearful pearl  
With silver to the sides

She finally won  
Her walk became a run  
She felt as she  
Could fly

Cause gabrielle  
Has learned to tell  
The gap from  
False to real

In her's the fan  
Who'll meet the man  
Cause love is  
Strength revealed

Gabrielle....
